JUST RELEASED!

ACUITY ADJUSTED NURSING FACILITY RATE CALCULATIONS

On December 4th, DHS released its proposed nursing facility acuity adjusted rate and the September 30 resident case mix index. Each calculation was mailed to the facility with a diskette containing a password protected file. If you did not receive this important mail, please contact Ralph Racca at 462-1879.

Every facility calculation that has been forwarded to us for review thus far results in a Medicaid rate reduction.

Please email (separately) the DHS file and password to Anita Porter at our office (aporter@lgcd.com). LGC&D is gathering comprehensive data and preparing a comparative analysis of the effect of the proposed acuity adjuster on your nursing facility and, to the extent possible, the industry as a whole.

Once we have reviewed your rate calculation, your LGC&D contact will be in touch with you to discuss the calculation and answer questions.
